Can I export citations from EBSCOhost to Reference Manager?

Yes, citations can be exported from EBSCOhost (and other EBSCO interfaces) to Reference Manager.

- While Reference Manager has been discontinued, if you need assistance in using Reference Manager, support is available from [http://referencemanager.com/](http://referencemanager.com/).

For instructions on exporting citations into bibliographic management software such as Reference Manager, see [How do I use the Export Manager?](https://help.ebsco.com/interfaces/EBSCOhost/EBSCOhost_FAQs/export_citations_ehost_to_Reference_Manager).
