Do EBSCOhost users receive an alert renewal notification concerning the expiration of their Search or Journal Alerts?

Yes, when a Search or Journal Alert is due to expire, EBSCOhost sends one renewal alert email message a day beginning 20 days prior to the expiration date. This renewal alert is sent to the email address associated with the account used to create the alert. Included in the renewal alert message is a link to the location where the alert can be renewed for up to one year.

The renewal alert notice ceases when you either renew the alert or delete the alert.
