What is the Related Information feature on the EBSCOhost result list?

Related Information is a feature of the EBSCOhost result list that displays content related to your search terms in the right hand column of the result list. Content can include Image Collection results, videos from the Video Encyclopedia of the 20th Century, E-Journals, or Research Starters.

In order to view Related Information, your EBSCOhost profile must include at least one of the following databases:

- Any database that includes Image Collection
- History Reference Center
- E-Journals
- Research Starters - Business
- Research Starters - Education
