Why do I get the error "You are not authorized to view this page" when selecting the "Click here to view the Harvard Faculty Seminar Series Video" link?

At this time the Harvard Faculty Seminar Series videos require Referring URL authentication to access. It is possible you are selecting the link from either:

-OR-

  • Secure socket layer (SSL) EBSCOhost session e.g. https://web.ebscohost.com/...
  • The EBSCOhost session URL is prefixed by your proxy server's address e.g. http://MyProxyAddress.edu?URL=http://...ebscohost.com

Neither of these configurations will pass the required URL referrer in the request to our video server. Please contact EBSCOhost technical support for potential workarounds.
