Linked Library Service

Transform your existing library data into the linked data format to make your collections visible (and discoverable) on the web. Reach both users and non-users alike as they search their favorite search engine.

With [NoveList Select for Linked Data](https://help.ebsco.com/interfaces/NoveList_Products/Linked_Library_Service) you can add NoveList's read-alike recommendations, appeal factors, and other book information to your Linked Library Service.
