**EBSCO Discovery Service (EDS) - Viewing Catalog Results**

*EBSCO Discovery Service* lets you view catalog details for a result in your library's catalog. If included in your subscription to *EBSCO Discovery Service*, you may also see real-time availability information that informs you of the up-to-the-minute status of an item in your library.

To view a library catalog record:

1. Perform a search on *EBSCO Discovery Service*.

2. On the result list, click the Article Title about which you would like library catalog information.

   ![Search Results](https://help.ebsco.com/interfaces/EBSCO_Discovery_Service/EDS_User_Guide/EDS_Viewing_Catalog_Results)

   The Detailed Record is displayed.

3. If enabled by your administrator, Enhanced Catalog Record information appears in the left column under Related Information.

   ![Detailed Record](https://help.ebsco.com/interfaces/EBSCO_Discovery_Service/EDS_User_Guide/EDS_Viewing_Catalog_Results)

   Additional book enrichment data from Library of Congress may include:
   - Table of Contents
   - Author information

https://help.ebsco.com/interfaces/EBSCO_Discovery_Service/EDS_User_Guide/EDS_Viewing_Catalog_Results

Last Downloaded: April 19, 2018
Related Information may include:
- Nearby or affiliated libraries holding the item
- Reviews of the title being viewed
- Similar Books
- Other books by the same author
- Other formats and editions
- Summaries from Literary Reference Center *

* Included if subscribed to Literary Reference Center and database is included in your search.

Real-Time Availability

If included in your institution’s EBSCO Discovery Service (EDS) subscription, you will see up-to-date information that advises you of the availability of a resource within the library. Real-Time Availability tells the user whether an item is:

Status:
- Available
- In Library Use
- On Hold
- Checked Out
- Missing
- Lost

Location:

If your library is part of a library group, you will also be advised of the specific location of an item within the group of libraries.

Examples:

Your real-time catalog updates may look like the following examples:

<table>
<thead>
<tr>
<th>Location</th>
<th>Call No.</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Max &amp; Government Information Library - Microform</td>
<td>MFC 184: GA 1.13/RCED-99-126</td>
<td></td>
</tr>
<tr>
<td>UGA Libraries - Hours &amp; Directions</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
