What is the EDS Wiki and how do I access it?

The EDS Wiki [http://edswiki.ebscohost.com](http://edswiki.ebscohost.com) is a technical resource for EBSCO Discovery Service (EDS) customers only. This collaborative site offers best practices, code examples, documentation, and more for implementing, customizing, or integrating your EBSCO Discovery Service.

If you're an EDS customer, [click here](http://edswiki.ebscohost.com) to request an EDS Wiki account. Once your account is set up, which may take up to 48 hours, you can log in, explore the site, and share your knowledge.
