How can I link from HighWire to Full Text Finder?

First you will need to associate subscriptions with your HighWire account to take advantage of the OpenURL configuration setup feature.

You can then use the "Manage OpenURL Configuration" page in the "Configure OpenURL section of your HighWire" Administrator Toolbox.

- **Resolver Base URL:** http://resolver.ebscohost.com/openurl
- **Resolver Image:** http://imageserver.ebscohost.com/branding/images/FTF.gif
- **Link Text:** Check *Full Text Finder* for more information.
