How do I set my Full Text Finder link to hide if full text is available in EBSCOhost?

Library administrators have the ability to hide the *Full Text Finder* link if full text is available in EBSCOhost.

To hide the *Full Text Finder* link when EBSCOhost full text is available:

1. Log into EBSCOadmin.
2. Click the **Site/Group Maintenance** button in the upper right corner.
3. Click **Go** under **CustomLinks**.
4. Select the **Full Text Finder** link(s).
5. Scroll down and next to the section that says **Hide link if full text**, select the **Yes** radio button.
6. Click **Submit**.
