Is there a way to bypass the Full Text Finder link resolver menu?

Library administrators can choose to have Full Text Finder open the first available full-text link. This can be done by using EBSCOadmin and following the directions below.

To bypass the Full Text Finder menu and go directly to the full text:

1. From the Choose Profile drop-down menu, select your Full Text Finder profile.
2. Click the Linking sub-tab.
3. Select the On radio button to the right of Automatically Open to Full Text.
4. Click Submit.
