How do I setup a CustomLink to Serials Solutions 360 Link?

 Serials Solutions 360 Link is an OpenURL link resolver that can link to all your library resources. You can link directly from search results in EBSCOhost databases to Serials Solutions 360.

To link from EBSCOhost to Serials Solutions 360 Link:

2. Click the Site/Group Maintenance button, then click on Go below CustomLinks.
3. Click on Add New CustomLink.
4. Select Copy from existing CustomLink and click on Continue.
5. Select Other from the Category drop down list.
6. Click on ++show other available CustomLinks.
7. Select Serials Solutions 360 Link.
8. In the Base URL field, replace BASEURL with your 360 Link Base URL.
9. Complete the remaining fields that meet your library's needs and click Submit.
10. Next, add the link to your profile. Click the Customize Services Tab, select your profile and then click the Linking Sub-Tab.
11. Click the Modify link to the right of CustomLinks.
12. Click Add New CustomLink and mark the Select box to the left of the Serials Solutions 360 Link.
13. Click Submit. Your changes are saved. Repeat steps 10-13 for any other profiles to which you want to add your CustomLink.

If you would prefer to have EBSCO Technical Support set up the link for you, you can submit your request http://support.ebscohost.com/contact/askus.php, or call Tech Support at (800) 758-5995.

Please be ready to provide the following information:

- The base URL for the Serial Solutions 360 server (The base URL is unique for each library customer).
• The name of the EBSCO/host profile that will have Serial Solutions 360 Link activated.
