Rehabilitation Reference Center

This page enables you to browse all of the available support documentation related to EBSCO's Rehabilitation Reference Center interface.

Rehabilitation Reference Center™ (RRC) is an evidence-based clinical reference tool for use by rehabilitation clinicians at the point-of-care. RRC provides physical therapists, occupational therapists and rehabilitation students with the best available evidence for their information needs. Content in RRC includes more than 500 Clinical Reviews, more than 150 research instruments, information from AHFS on over 11,700 drugs and their manufacturers, more than 9,800 exercise images, key reference handbooks, guidelines from the National Guidelines Clearinghouse, nearly 1,500 relevant patient education topics in both English & Spanish, and news and clinical updates.
