Alexander Street Press database enhancement for EBSCO Discovery Service (EDS)

EBSCO is pleased to announce that we have enhanced the search experience of the Alexander Street Press content within EBSCO Discovery Service (EDS). Specifically, customers should see much improved CustomLink and limiter functionality due to more precise collection definition and management.

As a result of these changes, existing saved searches and persistent links to Alexander Street Press items will need to be updated to reflect the new collection assignments. We encourage all EDS customers to refresh saved searches, update persistent links embedded on web pages and verify that all Local Collections for Filter are fully aligned with current Alexander Street Press subscriptions.

Information about persistent links and saved searches

To update your persistent links you will need to re-run your search and select either the Share link located next to the right column in your search results, or the Permalink option from a Detailed Record. More information can be found on the following pages:

Updating Alexander Street Press Custom Links

**EDS - Alexander Street Press (VAST) CustomLink**

The recent updates make this link no longer necessary, so you should remove this from your account.

If you already have the EDS - Alexander Street Press CustomLink, simply add the correct VAST System Collection to the CustomLink setup, see Step 2 option for updating the EDS – Alexander Street Press CustomLink.

If you do not have the EDS – Alexander Street Press CustomLink, please add this by following the directions in Step 1.

**Step 1**

2. Click the **Site/Group Maintenance** button, then click on Go below **CustomLinks**.
3. Click on **Add New CustomLink**.
4. Select **Copy from existing CustomLink** and click on **Continue**.
5. Select **Full Text** from the Category drop down list.
6. Click on **++show other available CustomLinks**.
