Usage Consolidation - Training

Recorded Training Sessions

Usage Consolidation: Basics

This 30 minute session provides a brief overview of the main features and introduces EBSCO’s Usage Loading Service, an option to have EBSCO take care of configuring your platforms and loading your usage.

Usage Consolidation: Complete Overview

This 60 minute session provides a thorough overview of the service and a review of the main features and functionality including configuring platforms, loading your usage data, and generating usage reports. This review is particularly useful if you will be completing all these steps for the platforms in your collection.
