If I open a Flipster SmartLink on a mobile device, will it open in the Flipster mobile app?

No, *Flipster* SmartLinks in EBSCOhost or *EBSCO Discovery Service* are not designed to automatically open content within the *Flipster* mobile app if it is installed on your mobile device. If a user does wish to open a *Flipster* SmartLink in the app on their device, it is possible.

**To open a *Flipster* SmartLink in the app:**

1. Click on a *Flipster* SmartLink.
   
   The SmartLink opens the *Flipster* mobile viewer in the mobile device’s browser.

2. Click the **Open in App** link in the menu on the mobile viewer.
