Can I use my Google account to check out audiobooks?

At this time, the EBSCO Audiobooks app does not have support for Google login for downloading checked out Audiobooks. Because of this, audiobooks cannot be checked out when users are signed in with a Google account because the titles will not be able accessible in the app. We are working to add Google login for the audiobooks app and hope to have that available soon.

In the meantime, users may still check out audiobooks with a My EBSCOhost account.

For users that first logged in with standard authentication methods like IP, proxy, library card, etc., then personalized with Google credentials:

1. Click the Sign Out link in the top toolbar.
2. Enter your My EBSCOhost username and password when prompted, or create a new account.
3. Once signed in with your My EBSCOhost account, check out audiobooks.
4. Launch the EBSCO Audiobooks app and log in with the same My EBSCOhost account.
5. Your checked-out audiobooks will appear on the Library page.

For users that first logged in with Google credentials:

1. When you click Sign Out, you will be redirected to your Institution’s Select Service page.
2. To check out an audiobook, enter or create My EBSCOhost credentials.
3. Once signed in with your My EBSCOhost account, check out audiobooks.
4. Launch the EBSCO Audiobooks app and log in with the same My EBSCOhost account.
5. Your checked-out audiobooks will appear on the Library page.
